PITTSBURG COAL COMPANY'S PLAN

Will Build Second Largest Elevator on River

Makes Purchase of 150 Feet From Paducah Furniture Company for Tipple.

WILL DO EXTENSIVE BUSINESS.

"D. H. Murphy, architect for the company, was here last week and drew the plans for the finest and largest coal elevator in the United States," said James D. O'Donnell, manager for the Pittsburgh Coal company today. "The largest elevator at present is the O'Donnell elevator in Louisville, which has a capacity of 4,000 bushels an hour, but the one to be built here will have a capacity of 5,000 bushels an hour. Fifty-four wagons can be loaded at the same time from this elevator and we will handle coal by rail as well as by water. Of course the machinery will be the latest to make that record and several entirely new features in handling coal will be added in screening and grading. Mr. Murphy will return this week and bids will be called for immediately. Our facilities will be such that we could supply the entire demand of Paducah if we had the business, and we expect to have the elevator ready for fall. Wagons can be loaded as fast as they can drive under the chutes."

Invasion of the river coal business by the Pittsburgh Coal company in the local trade is now certain with the actual purchase of that the local trade seems probable with the contemplated purchase by that company of ground from the Paducah Furniture company on the river front. A deal was closed with the company for a strip of ground 150 feet wide extending from Third street to the river front, across the Furniture company grounds.

In the year or so the Pittsburgh Coal company has been in business in Paducah, little more than the city trade has been sought or sold. The present facilities, while large enough to handle the city business, would not be adequate for handling the business of the boats, and the acquisition of the additional river front with the opening on Third street would place the company in a position to handle all business that could be secured. The business being sought by this move is the supplying of boats with coal for fuel. At present the river business is supplied almost solely by the West Kentucky Coal company and the St. Bernard Coal company.

It is understood that the plan is to build a tipple on the new purchase. This tipple could take up the coal from the barges and unload it at the top of the wharf, into wagons for city trade. The present docks and wharves at the foot of Washington street could be used for supplying the river trade.

The Pittsburgh Coal company owns numerous boats and many hundreds of barges and their entrance into the local river trade will mean several more towboats in the local harbor to handle the business.

WILL DISSECT OSSIFIED MAN

Museum Freak Gives Body at Death to Medical School for Study.

Waterbury, Conn., April 25.—Edward F. Gilpatrick, an ossified man, on exhibition here, has made all arrangements for the gift of his body at death to the Harvard Medical school for dissection, study and research. He fears he may not live long. He was stricken at 30 years and was found in a poor house near Portland. He gives his body without expense.

Church Is Growing.

The Kentucky Avenue Presbyterian church held the regular congregational meeting for the first quarter of 1907 Wednesday evening at the prayer-meeting hour. Reports were read from the Sunday school, Ladies' Aid society, Senior Christian Endeavor society, Junior Christian Endeavor society and from the pastor, treasurer and board of deacons, all reports showing excellent work done. A large amount of money was reported raised and paid for improvements to the church building, and all departments were reported in a flourishing condition financially as well as spiritually. Nineteen new members were added during the quarter.

WEATHER FORECAST.

THREATENING.

Threatening and colder tonight with probably rain north portion. Friday partly cloudy and colder. Highest temperature yesterday, 75; lowest today, 55.

CHARGE FORGERY.

Boston, April 25.—Forgery is the latest charge the plaintiffs in the Mrs. Eddy case have made against leaders of the Christian Science church. More than 100 letters have been examined by handwriting experts, who are said to have come to the conclusion that some one else has been signing the name of Mrs. Eddy.

HEAD OFF UPRISING.

Tokio, April 25.—Prompt steps were taken by Japanese authorities in Korea to checkmate plans for the intended uprising there. It is believed the early discovery of the plot and steps which have been taken to prevent an outbreak have averted the danger for the present at least.

BUTLER RELEASED.

Dover, Del., April 25.—Frank H. Butler, arrested and held under suspicion of having kidnapped or killed Horace Marvin, was released from custody today. Detective Hawkins said the attorney general directed him to ask for the release of Butler, because of insufficient evidence.

BANDIT LEADER.

New York, April 25.—In Ignazio De Leonard the police today believe they have in custody the leader of the band of child stealers who have made a business of kidnapping children of wealthy Italian citizens. De Leonard was captured in Brooklyn after a hunt of several weeks. One of the kidnappers identified the person.

PITTSBURG FIRE.

Pittsburg, April 25.—A large packing establishment owned by William Zoller, covering two acres of ground, was practically destroyed by fire this morning. The loss will exceed \$200,000. A large quantity of dressed meat was destroyed and 300 employees were thrown out of work.

INCENDIARY FIRE.

New York, April 25.—Fire, believed to have been started by incendiaries with the object of robbery early today endangered the lives of hundreds of tenants of a five story tenement in the Bronx. Incendiaries are believed to have started the fire in the hope during the excitement they could rob apartments. Two men and a woman were badly burned.

PRINCE EITEL THROWN.

Berlin, April 25.—Prince Eitel Frederick, Emperor William's second son, was thrown from his horse today, while participating in military maneuvers on the Doberitz plain near Potsdam. He sustained a slight concussion of the brain.

"SAND LOT" DEAD.

San Francisco, April 25.—Dennis Kearney, the famous "Sand Lot" orator, died last night. In 1875 he began agitation among the laboring element, which resulted in the passage later of the Geary act, which excluded Chinese labor.

STRIKE CONTINUES.

Fernie, B. C., April 25.—Miners and mine operators apparently are as far apart as ever in effecting a settlement of the coal strike. Alarm is spreading over the possibilities of the strike lasting all summer. Mounted police with arms and ammunition are arriving in the strike region.

CITY TO CONTROL TELEPHONE RATES

Is Plan of City Solicitor Jas. Campbell, Jr.

Louisville Already Involved in Litigation Over Effort to Enforce Such Right.

MAKE CHANGE IN CHARTERS.

Municipal authority to regulate telephone rates is one of the provisions City Solicitor Campbell would suggest including in the charter of second class cities, if the commission to revise it is appointed by the four cities composing that class.

His idea was evolved as a solution of the litigation now pending between the city and the East Tennessee Telephone company in the state and federal courts. In Louisville Judge Richardson, city attorney, is of the opinion that the city has implied authority to regulate rates, and adoption of an ordinance introduced on his suggestion has been enjoined by the East Tennessee Telephone company.

Mr. Campbell's idea is to put an end to this litigation by specific act of the legislature conferring on municipalities of the state that power.

"As the matter rests now," he said "this litigation promises to be never ending. Our ouster proceedings against the East Tennessee Telephone company in the state courts have been enjoined in the federal court, and if we win, there are so many complications that the telephone company may keep appealing and continuing the case for six or seven years, and piling costs up to the moon."

"In the meantime the city will have no control over the company. It claims the practical by perpetual right to the use of the streets, according to a grant, which I contend the city did not have the right at the time to give. There is no means of regulating the company in its public relations. It was because I foresaw possible contingencies, that I urged on the general council a compromise."

The hearing on the demurrer of the city to the application for a permanent injunction will be held in Louisville before Judge Evans May 15.

CRACK TOY SAFE TO GET CONTENTS

Smallest on Which Powder Was Ever Used By Thieves To Rob a Person Was That at Crumbaugh Home

FOUND LYING IN THE ALLEY.

The smallest safe doubtless ever "cracked," was blown in Paducah yesterday. The job was a success and the safe blowers secured \$5. When the servants' quarters at the residence of Captain G. C. Crumbaugh, Seventh and Madison streets, were entered yesterday morning shortly after 5 o'clock after the servants left for their work, a small combination bank was taken. It was but six inches square, and later it was found in the back yard near the corner of the fence. The door was open and the combination ruined. The bank was "cracked," and very black. Freshly burned powder could be smelled, evidence that the "egg" had "blown" the safe with powder.

CAT SCRATCHED HIS EYE AND HE MAY LOSE SIGHT

Attacked by an angry mother cat, Mr. George Z. Umbaugh, the popular lodge man, was badly injured in the left eye and his sight may be permanently injured. Mr. Umbaugh went out to feed his horse. The cat had a litter of kittens in the barn loft, and was trying to mount the ladder. Mr. Umbaugh picked her up and started to gently pitch her into the loft when suddenly she turned, and spitting furiously, slapped him in the left eye with her claws. Dr. J. W. Pendley attended him.

TIRED LODGE MEN HAVE BUSY TIME

Instituted Order at Smithland Last Night and Returned Today. Attend Meeting and Annual Reunion

GOOD ORGANIZATION MADE.

Seven sleepy, weary, Odd Fellows laboriously pulled themselves up the levee at the foot of Broadway this morning at 5 o'clock, hardly able to stand the exertion. They attended the institution of a lodge of Odd Fellows at Smithland last night and only the realization that "more is to come" stimulated them. Harry Judd, George Z. Umbaugh, C. G. Kelley, Frank S. Digel, J. O. Keebler, O. D. Anderson and A. T. McKinney composed the party. They went up in a gasoline launch and returning, left Smithland at 2 o'clock this morning. At 5 they arrived and it is a strenuous life they have before them for the next two days and nights. Tonight is a lodge meeting, and they will be in attendance in order to complete arrangements for attending the interstate meeting at Metropolis Friday. The interstate meeting will keep them hustling for another day and the greater part of the night. Twenty-six out of a class of 40 were initiated at Smithland last night. The banquet was a success, the diners leaving the lodge hall at 1.30 o'clock this morning.

The delegation from the local lodges were assisted in the organization by A. W. Clements, of Morganfield, P. G. M. The Smithland lodge will be designated No. 289. Officers were elected and installed as follows: L. H. Cotteran, N. G.; C. H. Nelson, V. G.; C. G. Webb, Jr., secretary; L. P. Berry, treasurer; L. D. Threlkel, warden; W. L. Threlkel, outside guardian; Robert Rivers, inside guardian; L. P. Adams, conductor; J. P. Crompton, R. S. V. G.; W. F. Cooper, L. S. V. G.; J. P. Presnell, R. S. N. G.; G. P. Syster, L. S. N. G.; G. W. Landram, R. S. S.; Alexander Lockhart, L. S. S.; Robert Lally, chaplain. The lodge will meet every Friday evening.

PATROLMEN SHOOT INTO RESIDENCE

Target practice by two policemen early this morning nearly resulted in wounding of Miss Birdie Flore operator at the East Tennessee Telephone exchange, who lives at the residence of W. R. Montgomery, 1121 South Eleventh street. She had just gotten out of the bath tub, when a large calibre bullet came crashing through the window sash, rebounded from the transom and fell into the tub. Patrolmen Jack Sanders and Will Orr were discharging their weapons five blocks away. It is the custom for policemen to fire and reload their weapons at least once a week, and they were engaged in this when Patrolman Sanders shot went wild.

Chicago, April 25.—The condition of President John Mitchell, of the United Mine Workers of America, who is seriously ill here, is reported slightly improved today.

MGR. FARRELLY IS MOST LIKELY MAN

Probably Will be Named Coadjutor to Bishop McCloskey of This Diocese. Aged Prelate Outranks Others

FROM THE AMERICAN COLLEGE.

Rome, April 25.—In vatican circles it is considered likely that Mgr. Farrelly, spiritual director of the American college here, will be appointed coadjutor to Bishop McCloskey, of Louisville, Ky.

Some time ago it was announced in vatican circles that such an appointment would be given to Monsignor Farrelly, but no action was taken at that time and it was said in Rome that the matter had not been considered. Mgr. Farrelly is well known throughout the south. He is a native of Arkansas but lived for many years in Nashville. The distinguished prelate is nearly fifty years old. He was ordained at Nashville and is considered one of the most learned men in the American Catholic hierarchy.

The Right Rev. William George McCloskey, bishop of Louisville, is the oldest Catholic bishop in the United States, both in age and in point of continuous service. He is in his eighty-fourth year and has been bishop here for thirty-nine years, having been consecrated in 1868. The only other Catholic prelate in America who exceeds Bishop McCloskey in age and point of service is Archbishop Williams, of Boston, Mass.

ATTEMPT TO ROB SOUTHERN TRAIN

English, Ind., April 25.—A desperate attempt was made to wreck and rob a Southern passenger train here this morning. The telegraph operator discovered a bridge on fire, and while subduing the flames saw four heavily armed men near the scene. He telegraphed English and Marshal Cummings went out to meet the men. One of them shot Cummings through the bowels, probably fatally. One man was captured by a section hand. The others escaped.

GRAIN MARKET.

Cincinnati, April 25.—Wheat, 80 1-2; corn, 54 1-2; oats, 44.

BUYS MERRY-GO-ROUND.

Collins Clark Will Have Some Fun This Summer.

Collins Clark, the 6-year-old son of Louis Clark, the grocer, and grandson of Chief of Police James Collins, has no commercial timidity. "Today a bill of lading came for a merry-go-round billed to Collins Clark," Chief Collins said. "The boy had found in a catalogue a cut of a merry-go-round and grind organ, with capacity of four children under a small canvas top; and he immediately wrote for it. The price was \$38 and he wrote out a check in payment. He had told us he ordered the outfit, but we had no idea it amounted to so much."

FINE PROMOTION FOR STOREKEEPER

May Accept Responsible Position in St. Louis.

John Trent Given Leave of Absence By Illinois Central to See Whether He Likes Place.

BELL GIVEN HIS SUCCESSOR.

Mr. John Trent, storekeeper for the Illinois Central, and one of the most popular employees of the road, has been offered a position of great responsibility which doubtless will result in his leaving the service of the Illinois Central. To show appreciation for his excellent work, officials of the road granted him a several months' leave of absence that he may assume the new duties and if he desires to return to the Illinois Central he may do so.

Mr. Trent is offered the position of manager of the railroad department of the H. W. Johns-Mannville company, of New York, with headquarters in St. Louis. The company manufactures asbestos products, and is one of the biggest concerns of its kind in the country. He will leave after this month for St. Louis and assume charge of that department, and his friends feel sure he will remain permanently, the salary being double that of his present position, and the new office offering more opportunities for advancement.

Mr. Trent is a Paducah boy and first entered the services of the road as a clerk in Master Mechanic T. F. Barton's office. Within two years he accepted a position under Mr. J. M. Taylor, storekeeper for the Illinois Central system, at Chicago. He remained there several years and was made storekeeper at Paducah, a position he has since held with credit.

Mr. Bell Given will have charge of the local store house in Mr. Trent's absence and it is tipped that he will receive the permanent appointment if Mr. Trent decides to remain in St. Louis. Mr. Given has been in the service for many years, and is fully competent to fill the position.

Mr. Trent is the son of Mr. C. W. Trent, a machinist employed by the Illinois Central. He was graduated in the Paducah public schools, and resides on West Jackson street. He is a popular officer in the Elk's lodge.

is coming to claim your praise and patronage, coming with every honor and triumph New York and Europe can bestow, coming with a record of repeated uninterrupted successes, coming in the zenith of its glory to provide entertainment which is an endless round of irresistible and indescribable charm and delight.

The fresh, vigorous, glowing West is merged with the mysteries of the Oriental East. Real life radiates throughout in costumes and customs, in spirit and spontaneity. Cowboys, cowgirls, Indians, gauchoes, the world's regular soldiers, afoot and on horse, supplement the vivid, picturesque and unadorned exploits of Hindu jugglers, Singalese, Cosacks, African and Australian tribesmen, and a conglomerated array of other strange recruits.

"The Great Train Robbery"

SHORT TALKS BY L. T. COOPER.

MEDICINE.

It's curious what some people believe a medicine will do. They seem to think because I advertise my preparations I claim they will cure anything and everything.

MISS ISAACSON.

thing and everything. Well, I don't.

The other day I got a letter from a woman who said her husband had been in bed eighteen years with paralysis.

She had bought seven bottles of the Cooper medicine and her husband was still in bed. She stated that I was a scoundrel, a robber and various other pleasant things.

Now the only thing I claim for Cooper's New Discovery is that it will put the stomach in working order. I know that if this is done, rheumatism, constipation, kidney and liver troubles, nervousness, and the general tired out, despondent feeling will disappear in ninety-nine cases out of a hundred. I know this medicine to be a fine tonic which used twice a year will throw off impurities and add flesh, strength and tone to the entire system. But it will not do the impossible. No medicine on earth will do more than help nature. Certain diseases are beyond all medicine, although God in his wisdom may some day give us frail humans a knowledge of how to cure them. At present I know Cooper's New Discovery to be as thoroughly efficient a medicine as was ever on the market, and people who will take it for the common ills to which flesh is heir will be more than satisfied.

Here is a letter from one who has tried:

"For a long time I have suffered from severe headaches, weakness, and pains in my back and sides."

"Nothing I tried gave me relief, and a friend advised me to try your medicine. I improved from the first week. My headache and backache left me and I felt myself growing stronger. My appetite increased and I felt greatly improved in every way. I am indeed thankful for the benefit I have received." Miss Jennie Isaacson, No. 18 15th Avenue, West, Duluth, Minn.

We have sold and are selling great quantities of these famous medicines.

Prisoners Mutiny.

Odessa, April 25.—Goaded by torture of keepers 60 prisoners in the government prison revolted today and engaged in a desperate fight with their keepers. The assistant governor and one prisoner were killed and 20 prisoners seriously wounded. Troops clubbed the remainder of the mutineers into submission.

Triumph is a matter of simply trying again.

ODD FELLOWS

WILL FORM AT FIFTH STREET AND BROADWAY AT 7:30.

Three Lodges Will Be Headed By Deal's Band—Mechanicsburg Expects To Take Prize.

Arrangements in Paducah for the annual meeting of the Interstate Odd Fellows' association at Metropolis, Friday, April 26, are nearing completion, only a grand marshal for the combined local lodges remaining to be selected. He will be named tomorrow. The four local lodges have named grand marshals as follows: E. T. McKinney, Mangum; C. E. Renfro, Ingleside; Henry McGee, Mechanicsburg lodge. The lodges will form at Fifth street and Broadway at 7:30 o'clock Friday morning and march to the river, headed by Deal's band, to take the steamer Cowling. This will throw the Paducah delegation into Metropolis between 9 and 10 o'clock. The boat will make four trips, however, and all who can not go down on the first, will have the opportunity to go later in the morning or in the afternoon. Mechanicsburg lodge expects to take a prize for having the largest number in line of march for any individual lodge.

FEEL RUN DOWN?
Many people do in early spring. Perhaps it is the reaction from the winter manner of living. But, whatever cause, it is unpleasant condition, unfitting, its victims for the activities of life—the proper enjoyment of life itself, in fact. A simple, altogether unobjectionable remedy, well calculated, according to physicians, to restore the lost tone and vitality to the rundown system is composed of 1/4 oz. Fluid Extract Buchu, 1 oz. Bulo Mixture, 1/4 oz. Fluid Extract Gentian Compound and 15 ozs. water. These ingredients are obtainable at small expense at any good drug store and may be combined by the pharmacist or at home, as desired. The dose is one tablespoonful three times a day, before meals. The preparation is said to be one of the best spring tonics known to medical men.

The magnificent Island Queen, Captain James Dupree in command, arrived this morning after carrying a successful excursion out of Cairo last night. With a capacity of 3,000 people and finished off in handsome style throughout, the Island Queen is one of the finest excursion steamers on the rivers. The Coney Island company own the Island Queen and something of the spirit of innovation is found aboard the steamer in the Japanese tea garden, operated by Japanese. The Island Queen will go to Metropolis this afternoon at 5:30 o'clock after a crowd there, return to this city to take on the crowd, and go up and down the river for several hours. Friday an excursion will be taken out of Shawnee town. The Island Queen was coaled at the St. Bernard docks this morning.

Boats are cancelled, too, as a picture was taken of the smart Dick Fowler as she was pulling out of Cairo this morning. If the picture is successful, it will show the Dick Fowler on a full side view with the river and the Illinois woods as a background. If the John S. Hopkins does not arrive too late today, a picture will be taken of her also.

The river was still on a stand at 16.5 this morning. On April 25 last year the river was receding from a high spring rise at a stage of 24.4. Business at the wharf today was fine.

The Reuben Dunbar arrived from Nashville last night on the way to Wolf Island after a trip of corn. The Henry Harley was in last week on the same business.

No trip will be made to Cairo tomorrow morning by the Dick Fowler on account of carrying an excursion from Cairo to Metropolis to the Odd Fellows celebration. However, the Dick Fowler will leave Paducah tomorrow at 7:30 o'clock in the evening for Cairo.

Tomorrow the George Cowling, the official boat of the Odd Fellows convention, will be busy throughout the day and until after midnight handling the crowds. The Cowling lacks nothing, in being as fine as the best packets on the river, but size.

The Royal will bring in a crowd from Smithland for the Metropolis affair in addition to the regular heavy business.

The Georgia Lee arrived at 2 o'clock this afternoon from Memphis on the way up to Cincinnati. Business was good.

The Peters Lee will pass down from Cincinnati for Memphis Saturday afternoon.

With schedules somewhat out of tune, the Buttortt arrived from Nashville last night, and after taking on a big trip here, left at noon for

Clarksville. The Buttortt will return Saturday.

L. T. Connor, first clerk on the Buttortt, was called to Louisville last night by a telegram announcing the death of his wife's mother.

There is no rest for the weary as far as the towboats are concerned. The Harth left last night for the Caseyville mines after coal for the West Kentucky Coal company, having returned from Hickman a few hours before.

The Lyda is down at Joppa today and returning, will go to the head of navigation in the Cumberland river after ties.

The Vincennes left today for the Tennessee river after another tow of ties.

The City of Saltville arrived last night at 8 o'clock from the Tennessee river on the return trip to St. Louis. The Memphis got away before noon yesterday for St. Louis.

All the business that can be handled has fallen to the John Hopkins since the Joe Fowler has entered the hospital. The Hopkins arrived late this afternoon from Evansville and got started back on her return in a few hours.

Official Forecasts.

The Ohio at Evansville and Mt. Vernon, will rise slowly for several days. At Paducah and Cairo, not much change during the next 24 hours.

The Tennessee at Florence, very little change during the next 24 hours.

The Wabash at Mt. Carmel, will not change much during the next 24 hours.

BLOOD POISON

CURE YOURSELF AT HOME

Contagious Blood Poison begins in the most insignificant way, and with less evidence of what is to follow, than any other disease. The first symptom is usually a little sore or blister, whose appearance does not indicate that deeper down, in the blood, a treacherous and deadly poison has found its way to corrupt and vitiate the entire circulation, and later to disease the body with the most loathsome and hateful symptoms. Unless one has experienced or witnessed the terrible results of Contagious Blood Poison, no idea of its effects can be formed.

When the blood has become fully inoculated with the virus, the mouth and throat ulcerate; glands in the neck and groin swell, and sometimes burst, forming ulcers; the hair comes out; copper colored spots appear on the body; and where the disease is allowed to remain in the system it penetrates deeper and deeper, until it affects the bones, causing them to decay, and makes a complete physical wreck of its unfortunate victim.

Not only the first one who contracts the disease must suffer, but it is transmitted through the blood from generation to generation, and innocent lives are blighted and diseased by this monster poison. No other disease is so highly contagious as blood poison; in the most trivial manner it may be contracted by innocent persons. Many have been inoculated with the virus, and suffered the disastrous and destructive effects of the poison, by a friendly handshake, or by using the same tableware or toilet articles, or handling the clothing of an infected person.

I was treated for two years by blood specialists, who treated me with mercury for Blood Poison, with no good results, so I gave them up and started to use S. S. S. When I commenced its use I was covered with sores and eruptions, and was very weak and run-down. Today, I am myself again, and my skin is as clear as a baby's. I know it made a positive cure for me of Blood Poison in the very worst form, and I am making it my business to have my friends use it as I did, and already two of them are having wonderful results in the way of a cure.

I am, today, a living testimonial to the value of S. S. S. in cases of advanced Blood Poison.

for awhile; as soon as they are left off the symptoms return in all their hideousness, and the sufferer finds he has wasted valuable time, and, in addition, ruined his health with these harmful drugs.

S. S. S. is the antidote for Contagious Blood Poison—the only remedy that is able to get at the root of the disease and force out every particle of the poison, so that there are never any signs of its return. It can be used and a perfect cure of the disease made in the privacy of your own home. Sufferers from this disease can be their own doctors, and the forty years of cures made by this remedy assures them that the treatment is in every respect the proper one, and that its use, together with any suggestions as to local treatment, which will be furnished by our physicians free of charge, will cure the trouble permanently and privately. S. S. S. is made entirely of purifying, healing roots, herbs and barks. We offer a reward of \$1,000 for proof that it contains a particle of mineral in any form. S. S. S. goes down to the very root of the trouble, and by driving out the last trace of the poison, and making the blood pure and strong, cures the disease thoroughly and with certainty. S. S. S. will also remove the effects of any mineral treatment that may have been previously used.

No Change Will be Made in Taft's Original Plans About Ohio Trip

Washington, D. C., April 25.—It was more or less evident from his manner today that the idea of a scramble for the presidential succession is extremely distasteful to Secretary Taft. He refused to talk politics at all, as was to be expected, and the only reference he made to the middle out in Ohio was the statement that he did not propose to discuss presidential politics in any way or in any of his speeches.

The program in the state was arranged long before the present situation had developed. It will be followed by the secretary of war, and he will go from Ohio to Minnesota and Oklahoma, as originally intended. Then he will come back to Washington and talk matters over with the president and decide on his future course in the light of any information he may receive while in Ohio.

Up to date Secretary Taft does not intend to participate in a rough and tumble political fight in Ohio or anywhere else. When he has an opportunity to make a speech it will be on the Brownsville affair, the Panama canal, the situation in Cuba, the condition of the Philippines, the progress of Porto Rico, and similar topics which have come within the sphere of his official duties. Presidential politics will be cut out entirely. He will not answer Foraker or anybody else.

Leaves Question With People. If, by discussing real governmental politics before the people in different places, they choose to select him as the presidential candidate, the secretary of war will be as pleased as any man could be under such circumstances. Every plan he has made thus far is for dignified treatment of the situation, with no joint debates, no partisan appeals to voters, and, above all, no attempt to split up his own party in his own state.

According to the present program the war secretary will preside at the Yale alumni meeting in Cincinnati Friday night. On Saturday he will speak before the Young Men's Christian Association of Dayton, and on Monday he will talk about the Panama canal before the Business Men's club in Cincinnati. All of these dates were arranged long ago, and as soon as he has filled his engagements, Secretary Taft will return to Washington, reaching here by Wednesday of next week.

See Mismanagement in Ohio.

Since the return of the secretary of war and his manifest determination to avoid an unpleasant political scramble, his friends have been free to admit that his interests have largely been mismanaged in Ohio. They think now it was a mistake to have antagonized Foraker at all, because this puts Taft in the attitude of opposing the re-election of the senior senator from Ohio, whereas up to within a few months there has been practically no opposition to him.

Most of the close friends of Secretary Taft here believe that from this time on he should conduct himself only as a presidential candidate, and should do nothing to antagonize Foraker and Dick. This plan of cam-

paign, if adopted finally, would involve the refusal to go into the proposed primaries, because Senator Foraker has insisted that such a test of strength must necessarily involve both the senatorship and the presidency, so far as Ohio is concerned.

It is now believed that after the secretary goes out to Ohio at the end of this week and makes his three speeches without in any way attempting to answer Foraker, the situation in the state will be greatly cleared and Taft's chances of securing the delegation decidedly advanced.

Fond du Lac Drunkards' Likenesses to Be Put Up in Saloons.

Fond du Lac, Wis., April 25.—The first man to come under the punishment provided by the Bruett resolution is Matt Fargo. Alderman Bruett is responsible for the resolution providing for the publication of pictures of habitual drunkards by posting such pictures in every saloon in the city, accompanied by an order that no liquor be sold to the occupants of the picture gallery.

A member of Fargo's family asked that no liquor be sold to him, and Alderman Bruett demanded that the resolution be carried out. This has caused a clash between the alderman and Chief Nolan of the police department.

The chief said he would send out the notices to the saloon keepers, but his department was not in the picture business, and if the alderman wanted pictures posted he would have to supply them.

TEAR OUT FINGER NAILS OF VICTIMS

Among Mildest Forms of Russian Fiendishness

Worst Stories of Tortures Practised On Political Prisoners Are Confirmed.

TOLSTOY'S LATEST PRODUCTION

St. Petersburg, April 25.—The commission appointed by the duma to investigate the alleged torturing of political prisoners at Riga submitted a report which was read in the duma today. It confirms the worst stories, most of its statements being admitted by deputy ministers of the interior and justice.

The report states that a special committee was appointed at Riga to direct tortures. The governor, with the knowledge of the administration authorities put prisoners, many of whom are merely suspects, to death without trial.

Descriptions of the tortures reveal amazing fiendishness practiced on the victims by officials acting with authority. Some are too abominable to print. Among the milder cruelties were the tearing out of fingernails, toenails and hair. Other prisoners were thrashed with India rubber sticks until their flesh hung in ribbons. Then salt was rubbed into the wounds. One man was tied to a bench and a plank laid across his body. On this plank policemen sawed until the victim's back was broken.

Boy's Fate Most Cruel.

A lad was jumped upon by a police man until his breast bone and ribs were smashed and his internal organs ruptured. Nevertheless, he lived some time in agony, during which he was unable to swallow anything but water. His fate was more cruel than that which befell many others, who after they were maimed by tortures, were taken outside the prison and shot. Age made no difference in treatment. An 8-year-old child was brutally flogged to compel it to tell the whereabouts of its father.

Deputies from the Baltic provinces and other places made speeches adding confirmatory testimony. They declared the prisons were overflowing with suspects who have been awaiting trial for months. They are supplied only enough bread and water to keep them alive until their tortures begin. A deputy of the interior said the minister had ordered an inquiry and prosecution of those guilty of torturing prisoners.

Tolstoy's New Book Drastic.

Berlin, April 25.—A Berlin publisher is about to issue a new work by Count Tolstoy entitled "The Way to Social Freedom." It is more drastic and revolutionary than any book Count Tolstoy yet has written. He recommends Russians of every class, profession and trade, refuse obedience to any orders whatever from the government, and suggests the latter forthwith divest itself of all power, leaving everybody to do the best they can for themselves, in other words, act as is natural and proper for man. He adds he doubtless will be considered a mad man for making such proposals.

Terrorists Rob Postoffice.

Sevastopol, April 25.—A band of armed terrorists drove up to the postoffice this afternoon, made the officials hold up their hands under penalty of being shot, took \$5,000 of the postoffice funds, and escaped, leaving no trace of their identity.

Thrown From Their Buggy.

A buggy in which Mr. L. Reber, the grocer of Tenth and Washington street, and his wife were riding, collided with a street car on Tennessee street between Eighth and Eleventh streets, last evening and was badly wrecked. The occupants were thrown out but not seriously injured. They reside at 917 Clark street.

Daily Thought.

"Believe in yourself and your good fortune."

THE VOICE OF EAST KENTUCKY.

Continuance of Roosevelt's policy and a Roosevelt man are demanded by eastern Kentucky Republicans in their railroad convention. It is the first gun in the presidential campaign. It represents the sentiment of a great body of Republicans in that stronghold, who were on notice that their attitude regarding the indorsement of the national administration would be put to the test. There was hesitancy, no shrinking. The action indicates the impression Roosevelt's policy has made on the country. As good Republicans they could not have been expected to go back on the administration when it was put up to them; as good citizens they could not afford to ignore the honesty of purpose in Roosevelt's conduct of office. That there was nothing said about the state situation, although Willson men evidently controlled the convention, indicates that Republicans in that section, as well as in this, are waiting for sentiment to crystallize a little better before committing themselves. Perhaps, too, they wish to be convinced that there is no senatorial candidate hiding in the gubernatorial timber.

Energy, such as manifested by citizens of Jefferson boulevard, commands itself to us. If all Paducah's citizens were as anxious to spend their time, money and thought to make their home street beautiful, Paducah would soon look like a great park. The principle of the Parisian law; "every man must sweep before his own door," if practised voluntarily in all cities, would work a revolution in our mode of living and in our civic conduct. Jefferson boulevard

ward improvements also will boom property on that thoroughfare, and we commend the foresight of her residents.

Right spirited colored people, who are building the home for friendless colored people are actuated by a desire to rescue homeless colored children from the streets and make useful men and women of them, instead of dangerous criminals. All citizens should be interested in promoting such a worthy project. Any condition that permits the rearing of unskilled, ill developed, vice-burdened people jeopardizes human life and property. Any institution that tends to eradicate this condition is conducive to the safety of life and property and the increase of local wealth.

Trigg county correspondents have grown indignant of late over the ugly reports of violence emanating from its confines; but in the light of the burning warehouse night before last, we read a different tale from that which Trigg county would wish published. Trigg county citizens had better devote more time to bringing their lawless neighbors to justice, and then they will have no occasion for indignation over exaggerated reports.

We feel confident that the ordinance committee of the general council is sincere in its request for more specific instructions about the anti-toy pistol ordinance, and intends to introduce one in conformity with Alderman Stewart's resolution—but the Fourth of July is coming on apace.

Poor old Memphis! She drove out a Williams, and then elected a Patterson to the governor's chair and a legislative delegation that took away her charter, and now she has a Williams in charge again. If there ever was a gang ridden city, Memphis is that one.

Harriman caused the arrest of his stenographer for selling the famous Roosevelt correspondence; but Harriman himself is on the defensive. He pleads not guilty to causing its publication.

If the Democratic layout doesn't suit you, remember there will be a Republican convention next month. You don't have to participate in the Democratic fracas.

Our prejudices constitute our only obstacles.

HEALTH AND HAPPINESS.
"Life consists not in living, but in enjoying health."

We could all enjoy health if we conformed to Nature's simple laws. Disease is merely a result of the non-observance of those laws, either by negligence, accident or ignorance. These reasons are, as a rule, of little consequence after disease becomes manifest and properly diagnosed. It is the nature of the treatment and the results obtained that concern you.

Nature is the ever present factor in the cure of disease. The Osteopath appreciates this fact, and uses all means that are natural, recognizing and using diet, air, water, exercise and other hygienic measures as natural assistants to scientific manipulations to secure normality to any and all structure disturbances.

I should be pleased to refer you, at any time, to Paducah, people you know well who can attest to what Osteopathy has done for them in cases of rheumatism, asthma, neuralgia, nervousness, stomach, liver, and bowel troubles, eczema, sick headaches, la grippe conditions, malaria, lumbago, disturbed blood conditions. If you are ill you owe it to yourself to investigate Osteopathy. Dr. G. B. PROAGE, 516 Broadway, Phone 1407.

Pretty Jackson Wedding of Interest Here.

The Jackson (Tenn.) Daily Sun of Wednesday says of a wedding solemnized there yesterday, the bride and groom of which are now the guests of Mr. and Mrs. John U. Robinson at the Cochran apartments in this city:

"One of the most beautiful weddings of the season was that of the Love-Williams marriage which took place at the Campbell State M. E. church this morning at 7 o'clock.

Rev. S. B. Love, father of the groom, performed the ceremony in a very impressive manner. The church was decorated in cut flowers and potted plants. White tulle was draped from the chandeliers in a very pleasing manner. The bridal party entered to the strains of the Mendelssohn wedding march played by Miss Alma Love, sister of the groom. The bride came in with her brother, Mr. Edgar Williams, preceded by her cousin, Miss Jennie Williams, who was maid of honor, and were met by the groom and his brother, Benson, who acted as best man. The bride was gowned in a tailored suit of champagne Panama cloth with hat and gloves to match, and carried a shower bouquet of bride's roses. The maid of honor was costumed in champagne silk with hat and gloves, to match and carried carnations. Immediately after the ceremony the bridal party drove to the Union depot

where they took the Illinois Central train for Paducah to visit friends and relatives. The groom is one of Jackson's most excellent young men with unexceptional morals and fine business ability, and has a position in the office of the I. C. road of that city.

The charming bride is the youngest daughter of Mr. and Mrs. E. M. Williams, of Hall street, and is a most lovable character and of rare beauty.

DO IT NOW.

Now is the time to take something to clean and build up the blood, ridding the system of the poisonous waste matter and acids, which cause Rheumatism, Blood disorders, Nervous Debility, Backache and other miserable weaknesses.

Here is one of the simplest though safest and most certain mixtures, which can readily be prepared at home at nominal cost:

Fluid Extract Dandelion one-half ounce Compound Kargon one ounce Compound Syrup Sarsaparilla three ounces. Get these ingredients from any reliable pharmacy and mix by shaking them well in a bottle. The dose is one teaspoonful after meals and at bedtime. Also drink plenty of water.

This home-made mixture, writes a noted authority, will overcome most forms of Kidney and Bladder troubles and at the same time force the kidneys to filter and strain all impurities and acids from the blood, restoring the full blood corpuscles, which means good, sound health and vigorous vitality, to say nothing of the clear, rosy skin and complexion which must result.

IN THE COURTS

Circuit Court.

ENGINEER WINS RACE.

Against Tobacco Barn Borne of Wings of Wind.

Lexington, Ky., April 25.—Engineer Scannon, of the Chesapeake & Ohio freight, was the hero yesterday of a thrilling race between a train and a barn, with several lives at stake. Scannon's train was passing Tebbis station near here, at a good rate, when the high wind which was blowing, lifted a big tobacco barn from its foundation and started it rolling down the hill toward the railroad, half a mile away. Scannon saw the danger and immediately threw the throttle wide open in an effort to outrun the barn. The heavy train was on the down grade and soon attained great momentum, but just as it looked as though the peril would be out run the big barn crashed into the caboose, smashing it. The impact also shattered the barn, which collapsed on the track. Trainmen in the caboose saw their peril in time to escape by jumping.

NEW METHODIST SCHOOL.

To Be Established By General Board At Palo Alto, Cal.

St. Louis April 25.—The general board of education of the Methodist Episcopal church, south, in session here today, appropriated \$50,000 for the establishment of a training school at Palo Alto, Cal., to be conducted in conjunction with Leland Stanford University. The appropriation is conditional upon an additional \$50,000 being raised in California. It is stated a Californian, whose name is withheld, has promised to give \$200,000 in money and property to the school.

PATROLMAN FALLS.
Runs After Hobo and Stumbles Along the Railroad.

A tramp riding the "blind baggage" of the fast Memphis-Louisville Illinois Central passenger train, No. 104, caused Patrolman Jack Sanders to come to grief this morning. He is suffering from a sprained left wrist, and a bruised right knee. The tramp left the blind baggage car as the train slowed up at the station, but not before Patrolmen Sanders and Orr saw him. Sanders started forward on a dead run, and his toe struck an obstacle, and down he went. The tramp escaped.

CHAPTER XVIII.

IT seemed to Duncombe that time stood still. Andrew's face, wholly disfigured by the hideous dark spectacles, unrecognizable, threatening, was within a few inches of his own. He felt his hot breath upon his cheek. For a moment there stole through his numbed senses fear of more terrible things. And then the grip which held him relaxed. Andrew stood away gasping. The crisis was over.

"You lied to me, George. Why?" Duncombe did not answer. He could not. It was as though his body had been emptied of all breath.

"You meant to keep the contents of that telegram a secret from me. Why? Was I right, after all? Read me that telegram, George. Read it to me truthfully."

"The telegram is from Spencer," Duncombe said. "He is coming here."

"Here? Is he giving up the search? Has he failed, then?"

"He does not say," Duncombe answered. "He says simply that he is coming here. He has wired for a motor to meet him at Lynd. He may be here tonight."

A discordant laugh broke from Pelham's lips.

"What about your Miss Fielding now?" he exclaimed. "Why do you suppose that he is leaving Paris and coming here? I was right. I knew that I was right."

Duncombe stood up. His expanse of shirt front was crumpled and battered. His white tie was hanging down in ribbons.

"Listen, Andrew!" he exclaimed. "I am speaking of the girl by whose side I sat tonight at dinner, who calls herself Miss Fielding, who has in plain words denied that she knows anything of Phyllis Poynton. I want you to understand this. Whatever she may choose to call herself that shall be her name. I will not have her questioned or bullied or watched. If Spencer comes here to do either, I have finished with him. I elect myself her protector. I will stand between her and all suspicion of evil things."

"She has found a champion indeed!" Pelham exclaimed fiercely. "With Miss Fielding I have nothing to do. Yet you had better understand this. If she be Phyllis Poynton she belongs to me and not to you. She was mine before you heard her name. I have watched her grow up from a child. I taught her to ride and to shoot and to swim. I have watched her listening to the wind, bending over the flowers in her garden. I have walked with her over the moor when the twilight fell and the mists rose. We have seen the kindling of the stars, and we have seen the moon grow pale and the eastern sky ablaze. I have taught her where to look for the beautiful things of life. She has belonged to me in all ways save one. I am a poor, helpless creature now, George, but by the gods, I will let no one rob me of my one holy compensation. She is the girl I love, the better part of myself."

"Phyllis Poynton may be all these things to you," Duncombe answered. "I do not know her. I do not recognize her. Find her if you can. Make of her what you will. All that I ask of you is that you divest your mind of these senseless suspicions. See! Phyllis Poynton where you will, but leave alone the woman whom I love. I will not have her troubled or annoyed by needless importunities. She says she is Miss Fielding. Then she is Miss Fielding. It is enough for me. It must be enough for you!"

"And what about Spencer?" Pelham asked grimly.

"Spencer in this matter is my servant," Duncombe answered. "If his search for Phyllis Poynton entails his annoying Miss Fielding, then he is dismissed. I will have no more to do with the business."

"I have heard of this man Spencer," Andrew answered. "If you think that he is the sort of creature whom you can order about like that, I fancy that you are mistaken. You may try to call him off, if you like, but you won't succeed. He is searching for Phyllis Poynton, and he is coming here. I believe that he will find her."

The windows were wide open, and both men suddenly turned round. There was no mistaking the sound which came to them from the road outside—the regular throb and beat of a perfectly balanced engine. Then they heard a man's voice, cool and precise.

"Here you are, then, and a sovereign for yourself. A capital little car this. Good night!"

The little iron gate opened and closed. A tall man in a loose traveling coat and carrying a small bag entered. He saw Duncombe standing at the open window and waved his hand. As he approached his boyish face lit up into a smile.

"What luck to find you up!" he exclaimed. "You got my telegram?"

"An hour ago," Duncombe answered. "This is my friend, Mr. Andrew Pelham. What will you have?"

"Whisky and soda and a biscuit, please," was the prompt reply. "Have not upset you, I hope, coming down from the clouds in this fashion?"

"Not in the least," Duncombe answered. "You've made us very curious though."

"Dear me," Spencer exclaimed, "what a pity! I came here to ask questions, not to answer them. You've set me a regular poser, Duncombe. By Jove, that's good whisky!"

"Help yourself," Duncombe answered. "We won't bother you tonight. I'll show you a room as soon as you've had a cigarette. Fair crossing?"

"No idea," Spencer answered. "I slept all the way. Jolly place you've got here, Duncombe. Nice country too."

"There is just one question," Pelham began.

"Shan't answer it—tonight," Spencer interrupted firmly. "I'm dead sleepy, and I couldn't guarantee to tell the truth. And when tomorrow comes—I'll be frank with you—I've very little to say. Pardon me, but where does Mr. Pelham come in in this matter?"

PEACE REIGNS

SALVADOR AND NICARAGUA SIGN ARTICLES AT AMAPALA.

Trouble Is Resumed in Honduras Where Bonilla's Followers Are in Open Revolt.

San Salvador April 25.—A treaty of peace between Salvador and Nicaragua was signed last night at Amapala by ministers representing each country. The terms are honorable to both. The conditions proposed by Salvador were accepted, and the demands made by Nicaragua for reparation for Salvador's part in the recent war between Nicaragua and Honduras and that there be free interchange of commerce between Nicaragua and Salvador were rejected.

Trouble in Honduras.

Mobile, Ala., April 25.—According to news received by steamer here today another revolution is starting in Honduras in favor of Manuel Bonilla and it has gained some headway in the vicinity of El Pimiento and Choluta.

THAW'S HOME IS HAUNTED.

Harry K.'s Mother, Fearing Suicide's Ghost, Would Sell Place.

Pittsburg, April 25.—A "ghost" has kept the Thaw family in fear of Lyndhurst, the family mansion here, for five years. Belief that the specter of a relative of the family who killed herself in the house in 1902 nightly stalks its halls is said to have deterred Mrs. William Thaw to sell the property.

The secret came out today, after having been suppressed for years. In the spring of 1902 a Kentucky woman, wife of a Presbyterian minister and a relative of Mrs. William Thaw, while visiting Mrs. Thaw at Lyndhurst committed suicide by hanging in a bathroom. Not a word of the tragedy was allowed to creep out. An inquest was held, but the matter was not allowed to go any further.

Mrs. William Thaw, mother of Harry K. Thaw, has since declined to stay in Lyndhurst save when surrounded by a large party, as she is superstitious. She has advertised Lyndhurst for sale and has built another residence near.

It is said that Harry Thaw has always urged his mother to sell the house, which he asserted was "haunted" since the suicide, and that Harry never would sleep there without a light in his room.

Normal Schools Win.

Frankfort, Ky., April 25.—The court of appeals, by Judge Barker, today affirmed the decision of the Franklin circuit court and the state fiscal court, in the case involving the right of the legislature to make appropriations to the normal schools of the state. The court holds that the act of 1906 is constitutional, as it does not violate section 184 of the constitution.

Fatal Fight At Revival.

Ashland, Ky., April 25.—At Sutton, a small town west of Grayson, where a revival has been in progress for the past week, a free-for-all fight occurred between the Patrick, Sexton and Haney boys, which broke up the meeting and resulted in the fatal injury of Jim Patrick and the serious injury of three others. The fight started during services when Patrick caught the hand of Albert Haney's sweetheart.

SURROUNDINGS OF INSANE PAUPERS

Are Mediaeval Says Report to Illinois Governor

Fifteen Reasons Are Given By State Board of Charities For Improvements.

COUNTIES HAVE NO CAPACITY

Chicago, April 25.—Mediaeval conditions surrounding the insane in the county alms houses of Illinois are disclosed in a report submitted today by the state board of charities to Governor Deneen. The report was adopted at a meeting held here this afternoon. The conditions are made the basis for earnest recommendation that the state assume complete care of the insane, in the name of humanity and progress.

No blame is attached to any person or set of officials because the alms house conditions in many instances still are unsatisfactory. It is shown the insanity is too great and too difficult a problem for satisfactory solution by so small a governmental unit as a county. The problem, of necessity, requires in its solution the greater resources of the state.

Reasons For Complete State Care.

Emphasizing the fact that the board is attacking an obsolete system and not county governments it states the following 15 reasons why Illinois should provide complete state care for the insane at the earliest practical date:

1. Because alms houses maintained by county governments, do not and cannot provide continuous, expert medical and nursing service.

2. Because, while this general assembly has been sitting, a girl in an Illinois alms house has been hobbled with chains pad-locked to her bare ankles because her stomping disturbed other inmates in the insane department.

3. Because, while this general assembly has been sitting, a rude box, with wooden slats across the top, supplied with iron hinges, haps and bolts, is ready, in a certain Illinois alms houses to receive any insane man who becomes unruly.

4. Because, today there are alms houses in Illinois where steel handcuffs, barred cells, cages and pad-

UNIFORM SCALE FOR LOCAL SHOPS

Blacksmiths and Machinists Are Waiting

Will Present Their Demands as Soon
as Results of Conference Now
On Is Known.

BOILERMAKERS AT MEETING.

Indications point to a demand for a uniform scale in Paducah Illinois Central shops for the boilermakers, blacksmiths and machinists, including helpers. The boilermakers' success in Chicago in securing the raise asked for will have a direct effect on both blacksmiths and machinists. Boilermakers want 40 cents and their helpers 20 cents the hour. Blacksmiths and their helpers have not been granted a date for conference, and machinists are "laying off" until the result of the boilermakers' conference, now on in Chicago, is known.

"We do not consider it the best policy to tell what we will ask for," a blacksmith stated. "Blacksmiths working on the forges get 30 cents the hour. Those doing the heavier engine work get from 33 to 35 cents the hour. Helpers get from 17 1/2 to 18 1/2 cents the hour. I will say that our new scale will have a tendency towards making the scale in the shops as a whole uniform."

Machinists get 37 cents and it is openly stated that they will ask for 40 cents the hour, but are holding off for 30 days, pending the boilermakers' conference.

Railroad News.

Mr. R. E. Fulmer, general foreman of the Paducah Illinois Central shops, is in Memphis today attending a meeting of general officers of southern lines, arranging for next month's expense account. It is a monthly meeting regularly held to outline needed finances. In his absence Mr. John Schroeder is acting general foreman.

The fast Louisville-Memphis Illinois Central passenger train, No. 103, was delayed this morning by an engine failure at Dawson Springs, arriving at 5:45 o'clock. It is due at 3:57 o'clock.

Mr. J. H. Keller, chief gardner of the Louisville division of the Illinois Central, was in Paducah yesterday

looking after flower beds. He stated that the depot lawn was the prettiest it had ever been at this season of the year. The grass did not die during the winter, and is as green and as thick as it was last summer. Mr. Keller takes especial pride in the Paducah lawns and flower beds as they have taken first prize on the system for the past five years.

Mr. C. H. Lock, the popular Illinois Central blacksmith, returned from Mayfield this morning, accompanied by his family. He is seriously ill of stomach trouble and had been confined to his bed several weeks.

Work on the race course continues to progress and it will be one of the best half mile courses in the state when completed.

THEATRICAL NOTES

"Sapho" was produced at the Kentucky last night to a fair sized audience. The play was an artistic success, the various scenes in the play being frequently applauded. Miss Lillian Atwood in the title role, had a long, heavy part and gave to the character of Fanny Le Grand a finish that showed she has had excellent stage training. Cecil Kirk as Jean Gaummon, took the part well and reached the difficult climax with confidence and ease. Miss Shaw as Irene, and Miss Kilduff as Alice, looked and earnestly acted their parts. Messrs. Blunkell, Berch, Hammett, Searies and Ward gave satisfaction in their support. Tonight "The Plunger," a four-act comedy drama, will be presented. For the matinee Saturday "East Lynne" will be the attraction. On Saturday evening \$10 in cash will be given away to the holders of the lucky tickets.

Hearst Plans to Capture Democracy By Same Means He Always Employs

Chicago, April 25.—People who thought that William Randolph Hearst, when he was defeated for governor of New York last fall, had quit his desire to be president of the United States, will have a chance to revise their opinions. Mr. Hearst has not abandoned his ambition. He has simply changed his plans for attaining it.

This change of plans is calculated to make all sorts of trouble for William Jennings Bryan of Lincoln, Neb. It does not mean that Mr. Bryan cannot have the Democratic nomination for president, if he can get it. It does mean that after he has got it, it will be of no value to him as a means of entering the white house.

The Hearst program, as outlined in the last few days in New York and Chicago, is extremely simple. It is a repetition of the one he worked so successfully in New York last year

when he forced the Democratic party organization of that state to make him its candidate for governor. This time he intends to force the Democratic organization of the country to make him its candidate for president, or else face the same dilemma which brought Tammany Hall and all the rest of the party in New York into line last fall.

Force Party To Indorse Him.
But, briefly, it is that he will break away from the national Democratic party as he did from the local organization in Chicago and New York. He will have himself nominated for president by a national independence league. Then the Democratic party can indorse him or not, as it sees fit.

The news was brought to Chicago by a man who is in close touch with Mr. Hearst in all his political plans. He expressed it in these words:

"Mr. Hearst soon will break away entirely from the Democratic party. He will advocate the formation of a national party that will represent ideas which, he claims, constitute true democracy.
Branches in Every State.
This means that branches of the independence league soon will be started in every state in the union. Then a national convention of the independence league will be called. It will be held before the regular Democratic national convention.
Then it will be up to the Democratic national convention. It will be in exactly the same position as the Democratic state convention in Buffalo last year. It can indorse Mr. Hearst, with a chance of winning, or name a candidate of its own with a certainty of defeat."

Believe He Has the Nerve.

The report received considerable credence in Chicago political circles for the simple reason that it was in line with previous Hearst performances. It was not doubted he had the nerve to carry the program through if he had determined upon it.

Not only did he force his own nomination in New York last fall by exactly similar methods but he repeated them in Chicago this spring in the municipal fight after giving the Chicago Democracy a taste of what it might expect in the county election in November.
